

/ WHY MYRIAD

- 
27 years - Over 27 years' experience working within the Oil & Gas, Construction, Transport, Engineering and Manufacturing sectors.
- 
Award Winning - Our work is award winning, having secured 20 awards already this year alone.
- 
Global Presence - our extensive network of strategic and production professionals enables us to work flexibly around the globe, understanding specific local context.
- 
Strategic Planning - Our constant aim is to produce award-winning strategy that offers clients a strong platform on which to build and share future communications.

/ WHAT WE DO

- 
Data Capture - Myriad takes a creative and holistic approach by listening to our client's exact needs then capturing bespoke solutions that build on our client's brand reputation.
- 
Programming - Our extensive communication techniques, looking into the bigger picture, reinforce and deliver against key business objectives, internally and externally.
- 
Back end Development - Our long-term relationships ensure that quality and consistency are assured. Constant monitoring and analysis confirms success.

/ HOW WE DO IT

By using multiple methods of communication, all focussed on using one platform, Myriad can build a sharing platform for the future. Using 21st century technology will increase project productivity and investment whilst maximising internal efficiency.
